

# Electrical Vehicle Charging Station Solutions for Bay Area Tech Companies

As California Goes Electric, the Workplace Will Become a Vital Part of the EV Charging Ecosystem

## Meet ESG Goals While Providing a Value-Added Service to Your Team

As the focus on sustainable business practices becomes ever more important to shareholders, employees and customers, EV charging station installation is one more way your business can demonstrate its commitment to meeting its ESG goals.

- Installing EV charging stations is a visible demonstration to the ESG commitment.
- Employees benefit from this investment and will likely come to expect EV charging stations as a standard amenity in the future.
- On-site EV charging as part of compensation packages can be used as an incentive to draw in your industry's top talent.

Federal, state and utility-sponsored incentives are now available to help businesses install EV charging station equipment. To take advantage of these funds, the time to act is now.

## Leverage Energy Efficiency Projects to Finance Charging Station Infrastructure

As energy efficiency architects, IoEnergy is uniquely positioned to help design a charging station plan that considers all aspects of your site's energy use profile.

- We will perform a comprehensive energy audit and determine efficiency opportunities that can offset the cost of charging station implementation.
- We will provide load calculations based on your existing systems and provide "good, better, best" options for delivering as many Level 2 charging stations as possible to help you meet the needs of your business and your team – today, tomorrow and five years from now.
- We will create implementation plans that make the most efficient use of space and result in minimal impact on the environment and your campus.

## IoEnergy are ADA Compliance Experts

- Comprehensive Understanding of ADA Building Codes
- Experience Designing ADA Compliant Projects
- Demonstrated Implementation Expertise

## IoEnergy are EE/EV System Funding Experts

- Auditing and Identifying Bundled Efficiency Opportunities
- Leveraging Energy Costs Savings to Offset Installation Costs
- No-Cost-to-Client Rebate & Incentive Management

## The Time is Now—Federal, State and Utility-Backed Funding Won't Last Forever

Let IoEnergy do the work of tracking down and applying for all available funding opportunities.
